

SATYENDRA PACKAGING LTD. Innovative Advance Packaging

BOPP FILM FOR PRINTING & POUCHING

(SIT 105° C)

TREATED HS LAYER CORE LAYER UNTREATED HS LAYER

Good Antistatic & Slip Properties Good Optics

Optimal COF

SALIENT FEATURES

- Low SIT (105°C)
- Excellent Runability on HFFS m/c
- Improved Lap Seal Strength

DESCRIPTION:

Transparent Heat Sealable One Side Corona Treated Low Temp. Sealing Grade Film

APPLICATION

- Printing & Pouching of Snacks/Bakery/Confectionaries
- Biscuit Bundle Wrap

| Properties | Test Method | Unit | | Typical Values | | | | | | |

DISCLAIMER

The specified values are based on average results, measured by the manufacturer during standard production. They should not be considered as Data Sheet of any particular product. The user is solely responsible for all determinations by the application of this information or the safety and suitability of our products, either alone or in combination with other products. Satyendra Packaging Ltd disclaims any liability for damages arising from the non-suitability of the product for the effected application.

Food Contact

The BOPP Film complies with all national and international standards and requirements for food contact. Specific declaration of compliances are available upon request.

Storage & Handling

UTR : UNTREATED

The products should be stored at temperature of 10-30 deg C and a low humidity (below 70% RH) in dry & covered warehouse for longer shelf life.
